

INSTALLATION GUIDE PIXERA CREATOR

STEP 1: Download the PIXERA creator from our website (www.PIXERA.one/PIXERAcreeator).

STEP 2: Install the PIXERA software on your computer, at this point you will receive a unique serial number.

STEP 3: Go to our website, now please fill in the form including the serial number (www.PIXERA.one/PIXERAcreeator).

STEP 4: You'll receive your license code as soon as we have approved your request.

STEP 5: Go back to PIXERA and enter the license code.

STEP 6: HAVE FUN testing our PIXERA software.

The image shows two screenshots from the PIXERA Creator software. The left screenshot is a dialog box titled "Please Enter License Code". It contains a message about USB dongles and a "Serial Number (Local System Fallback)" field with the placeholder "XXXX XXXX XXXX" and a yellow circle with the number "1" next to it. Below it is a "License Code" field. At the bottom, there is a "Copy Code Request to Clipboard" button and "Ok" and "Cancel" buttons. The right screenshot is a registration form titled "Please fill in". It has fields for "Company*", "First name*", "Last name*", "Serial Number*" (with placeholder "0000 0000 0000"), "Email*", "Website", and "Phone*". A yellow arrow points from the "Serial Number" field in the left screenshot to the "Serial Number*" field in the right screenshot.

Please note that if you update Windows, you may have to request a new creator license code.
