# SUPERIOR COLOR CORRECTION

In a world of ultra-high resolution images and video content, the ability to **efficiently work with precise and predictable color data** is a key factor for your project's success.

With PIXERA, you can access a **variety of highly effective color controls** to **flexibly react to the creative changes** your show or film production demands. **In real-time.**

## HIGHLIGHTS:

- ✔ Versatile color management
- ✔ OCIO custom profile integration
- ✔ ACES color workflow
- ✔ Ability to write custom shaders in GLSL
- ✔ Flexible and synchronized 4K and 8K playback
